Multiple-level mapping in the Precinct

1 - the top of this building is actually a car park, which is what you will see when you're level with it. Don't be confused by it not looking like a building !
2 - the purple stripe OOB is the vehicle route into the top level of the car park

A, B, C - the brown striping is a balcony overlooking the ground level of the precinct. There are three access staircases, A, B, C, which are narrow and twisty. A and B carry on up to other things - make sure you exit the stairs at the first opportunity !

Multiple-level mapping at Viaduct Park

On the upper level, L is the last control for all courses, F is the Finish and D is Download.

On the riverside (ground) level, P is the penultimate control for courses 4-8.

Between these two levels, S is a spiral ramp which does a full circle underneath what the map shows.

Take Care. Paths on Viaduct Park shared with cyclists
